

The smallest model in Watec USB camera series is born.

## **WAT-08U2 (G3.6)**

- Adopted 1/2.8" Full HD sensor
- Remarkable micro size  $20.5 \times 20.5 \times 30$  (mm)
- Focusing ring on the lens
- Wide-angle to telephoto lenses available
- Dedicated connection cables dramatically reduce installation dimensions
- Flexible mounting (mounting screw holes on the front and side of the main unit)
- Low power consumption of 0.75W

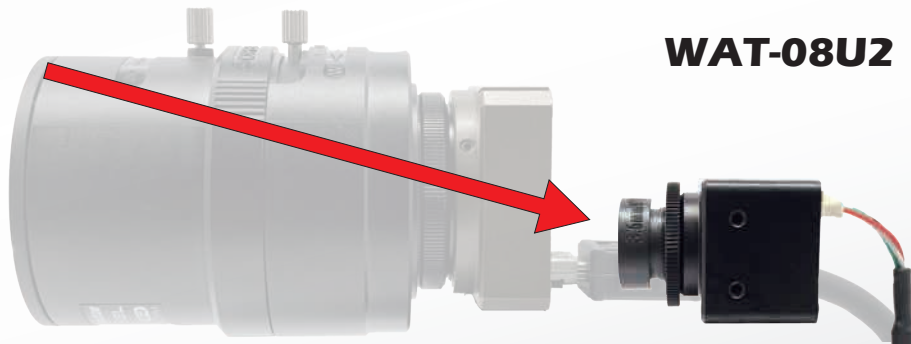

# Greatly saves space for camera installation

Space saving is achieved through the use of an M12 lens and dedicated USB cable.

**Volume Ratio** of installation space

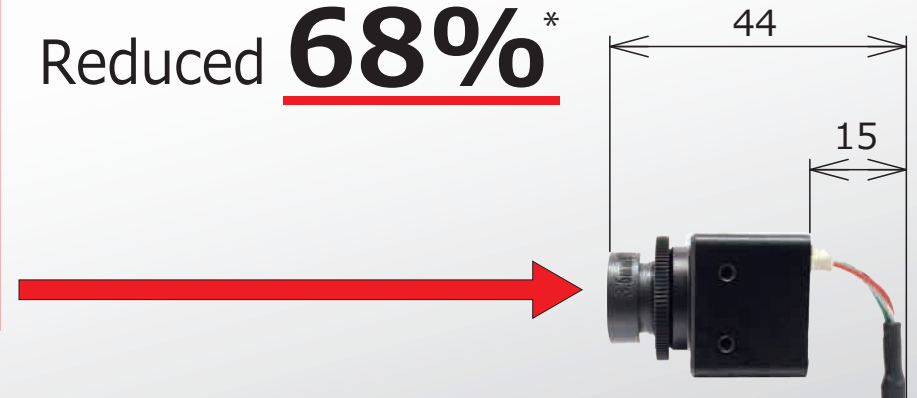

Reduced **93%**\*

**WAT-06U2** + C/CS lens

**Longitudinal Depth Ratio**

Reduced **68%**\*

\*This is our approximate measurement ratio including the bending diameter of the cable.

# SECURITY SHOW 2023

The demonstration of volume comparison was generated a great interest at the exhibition. The Visitors who actually picked up the camera were amazed at its small size.
